

MONTANA DEPARTMENT OF FISH AND GAME  
FEDERAL AID IN FISH RESTORATION SECTION  
HELENA, MONTANA

JOB COMPLETION REPORT  
INVESTIGATIONS PROJECTS

State of Montana

Name Evaluation of DDT Spraying

Project F-21-R-4

Title Investigation of the Effects of  
Forest Spraying Operations on  
Fish Populations

Job No. I

Period Covered: May 1, 1959 to April 30, 1960

This job was set up in anticipation of aerial spraying of forests in southwestern Montana with DDT during the summer of 1959. This spraying was to be done by the U. S. Forest Service in an effort to control spruce budworm.

The spray program in this area was postponed until 1960. Therefore the work set up on this job was not undertaken.
